World Trade Center Barcelona
Edificio Norte, 4ª Planta
Moll de Barcelona s/n
08039 Barcelona, Spain

GENERAL DIRECTIONS

Our office is located in the landmark World Trade Center designed Pei, Cobb, Freed & Partners, standing at the tip of the 500m long Moll de Barcelona in the middle of the old port of Barcelona (Port Vell), next to the Plaza Colom at the bottom of the Ramblas and close to gothic quarter of downtown Barcelona.

TAXIS-

Taxi fares in Barcelona are relatively modest and the proximity of the World Trade Center to the airport makes the 10 minute ride the most efficient option. Ask the driver to take you to the World Trade Center but mention the **Moll de Barcelona** and/or the **Grand Marina Hotel** if there are communication problems.

Taxis will drop you off at the Grand Marina Hotel, which forms the western part of the World Trade Center facing Barcelona. Walk to the left of the hotel entrance into the central square and you will find the North Building (Edifici Nord) on your left, easily identified by the pharmacy next to its entrance. Our office is located on the fourth floor.

DRIVING-

From within Barcelona, take either the **Ramblas**, the Avenida **Parallel** or the Via **Laietana** to the **Port Vell / Plaza Colom** down by waterfront. The World Trade Center is on the Barcelona Pier (Moll de Barcelona), which is also home the Balearic **Ferry Terminals** and a very conspicuous cable-car support tower (Torre Jaume I).

Coming from either the north or the south of Barcelona, take the coastal ring road (**Ronda Litoral**) to **Exit 21 (Port Vell)**. Coming from the south (as from the airport), follow on past two sets of traffic lights onto a large roundabout, which you enter into directly when exiting the underground section of the Ronda Litoral coming from the north. Follow the roundabout until you can exit to the right onto the Moll de Barcelona, clearly signaled with the **Ferry Terminals** and the World Trade Center (**WTC**) and easily identified by the round architectural presence of the World Trade Center with the conspicuous cable-car support tower in front (Torre Jaume I).

Enter onto the pier and drive into the underground parking on the left. You can exit the parking into the central square of the World Trade Center (Salida 10) or directly into the lobby of North Building (Salida 12). Our office is on the fourth floor of the North Building (Edifici Nord).

SUBWAY-

The closest subway station is **Drassanes** (Line 3) at the bottom of the Ramblas, which is a five-minute walk from the World Trade Center. **Line 3 (Green)** connects with the Plaza de Catalunya and the Paseo de Gracia / Diagonal on one end, and via the Plaza de España with the main railway station of Sants on the other. There is a rail link from Sants to the airport as well as an Aerobus to the Plaza de España and the Plaza de Catalunya.

From the Drassanes station, walk south towards the Moll de Barcelona, easily identified by the conspicuous cable-car support tower (Torre Jaume I), the Ferry Terminals, and the round architectural presence of the World Trade Center. Walk down the pier towards **Grand Marina Hotel**, which forms the western part of the World Trade Center facing Barcelona. Leave the hotel entrance to the right and go into the central square, where you will find the North Building (Edifici Nord) on your left, easily identified by the pharmacy next to its entrance. Our office is located on the fourth floor.
